

Online Library - Sport Resources

All students studying for a University of Wales qualification at a collaborative centre can take advantage of the Online Library. This web-based library service provides students with supplementary resources to those offered by the library service at a collaborative centre. It is continually being developed, with more subject areas and new resources being added and as part of our Global Campus website, the Online Library can be accessed 24 hours a day, from anywhere in the world.

Psychology And Behavioral Sciences Collection

Relevant to sport students, this database offers nearly **400 full text journals** on emotional and behavioural characteristics, psychiatry and psychology, mental processes, anthropology, and observational & experimental methods. Students can change the language of the user interface for this database.

Business Source Complete

With this large scholarly business database, subjects covered include marketing, management, accounting, finance, banking, economics, management information systems, and production operations management. It offers students full text access to over **3,500 journals and general business magazines**. Students can change the language of the user interface for this database.

Datamonitor 360

Datamonitor 360 is a comprehensive business information database containing company, country and industry reports. The database includes: SWOT analyses; company financials; PESTLE analyses; emerging markets information; industry profiles; news and opinion; and more.
